EASYCOURT - Mobile Justice Solutions for Tribal Courts

EASYCOURT is a state-of-the-art, mobile courtroom technology solution designed to provide tribal courts with a modern, reliable, and fully integrated system for conducting hybrid and virtual court proceedings. This pre-configured, easy-to-deploy solution includes high-quality audio and video capabilities, seamless integration with popular conferencing platforms like Zoom and Microsoft Teams, and support for multiple camera configurations. Combined with Starlink satellite internet, EASYCOURT ensures that tribal courts can deliver justice efficiently and effectively, regardless of location.

Mobility, Flexibility & Quick Setup:

The EASYCOURT mobile solution is designed with flexibility in mind. Tribal courts often need to hold sessions in various locations across their jurisdiction, which can span large, rural areas. EASYCOURT's fully mobile system allows courts to set up a fully functional courtroom in any location—whether it's a community center, a temporary venue, or another designated space within the tribal lands. Once proceedings are completed, the system can be easily packed up and moved to the next location, ensuring that justice is accessible wherever it's needed.

Advanced Hybrid Capabilities:

Hybrid tribal courts are essential for ensuring access to justice across dispersed and remote communities. EASYCOURT provides a reliable, flexible, and user-friendly solution that seamlessly integrates in-person and virtual proceedings through platforms like Zoom and Microsoft Teams, enabling tribal courts to operate efficiently regardless of location or connectivity challenges. With EASYCOURT, tribal courts can uphold their traditions while embracing modern tools to deliver justice effectively in today's digital world.

Evidence Presentation and Large Screen Displays:

EASYCOURT enhances evidence presentation in tribal courts with multiple PTZ cameras, a high-resolution document camera, and seamless BYOD (Bring Your Own Device) wireless sharing. It supports computer connectivity for presentations and features up to two large screen displays, ensuring that all evidence, whether physical or digital, is clearly visible to everyone in the courtroom. This comprehensive setup allows for easy sharing and detailed viewing, improving the overall transparency and fairness of court proceedings.

Built-in Starlink Capabilities:

EASYCOURT's integration with Starlink is a game-changer for tribal courts, especially those in remote areas with limited or unreliable internet access. Starlink provides high-speed satellite internet, ensuring that tribal courts can conduct virtual and hybrid proceedings without interruption. This connectivity is crucial for maintaining consistent access to justice, allowing court activities to continue seamlessly regardless of location. With EASYCOURT and Starlink, tribal courts gain the ability to operate effectively anywhere, ensuring that justice is always within reach for their people.

Reliable and Secure:

EASYCOURT is built with rugged, reliable, and best-of-breed technology, designed to withstand the unique challenges faced by tribal courts. Recognizing that justice must be served regardless of the circumstances, EASYCOURT ensures that court proceedings can continue smoothly even in remote or challenging environments. Its durable components and proven reliability make it the ideal solution for tribal courts that need a dependable, high-performance system. With EASYCOURT, tribal courts can confidently deliver justice, knowing they have a technology solution that's as resilient as the communities they serve.

Flexible & Affordable:

EASYCOURT is designed to make advanced courtroom technology accessible to tribal courts, even those with limited budgets. Offering flexible, scalable options, EASYCOURT provides a range of configurations that can be tailored to meet the specific needs of each court, ensuring that they only pay for the features they require. With the added convenience of our online courtroom builder and configuration tool, tribal courts can easily customize their system to match their exact requirements. The affordability and flexibility of EASYCOURT make it a practical, cost-effective solution, ensuring that tribal courts can benefit from modern courtroom capabilities without compromising on quality or budget.
